**10 LED sign shopping tips for LED Sign Digital Display Screen Billboard! 10 LED Sign rental shopping tips, how to rent or buy led sign? Call 800-955-0505**

1. Avoid (More is Better) More LED's and tighter pixels means much more electricity. For outdoor we recommend No lower number than P16 (16 millimeter between centers of pixels) **10 LED Sign shopping tips for LED SIGN**
2. Shop LOCAL, if NO LOCAL rep (USA). Choose vendor who is awake at your timezone to answer your calls.
3. Chipset choice matters. Names to consider Cree, Nichia, HP and many others.
4. Choose Brass connections when possible over

- steel. Steel rusts creating resistance and high electric bills.
5. Less IC's and chips on the back is better. (Our 2 sided Advertiser draws less than 10 AMPs fully lit.)
  6. Brightness is NOT that important. Most Brightest only needs to be turned down. Don't overbright!
  7. Consider getting your sign on a trailer like [www.ledsignz.com](http://www.ledsignz.com) product. Requires NO PERMITS or Zoning because it sits on a license plated trailer... **but WE RECOMMEND YOU GET A PERMIT! (Eliminates headaches)**
  8. The computer will be the FAILURE POINT repeatedly. Ask any current owner of LED SIGN. Be sure your LED Sign has NO COMPUTER IS IN THE SIGN ( [www.ledsignz.com](http://www.ledsignz.com) patent-pending design) removes the computer completely from the sign. You use a pre-programmed messages loaded on US-DONGLES. [See VIDEO](#)
  9. Rent before you buy. A rental program like ours (\$125/day) lets you know if this can fill your store with traffic. Try-it before you buy-it. Rent it first. Or you may want to lease it for \$377/month. Apply at <http://www.ledsignz.com/lease-an-led-sign/> at we offer  $\frac{1}{2}$  of all rentals towards purchase price.
  10. Consider a mobile sign on a trailer for ZONING reason above, but also for trade-shows, parades, home-days or simply to promote an offsite function... simply take behind any car and (in the case of ours only need electricity) which can be from the car too! [amid@ledsignz.com](mailto:amid@ledsignz.com) 216-475-9800
  11. **If you have a LOCAL [www.tvjumbo.com](http://www.tvjumbo.com) rental**

agent then watch this, if not, consider becoming a dealer for [www.ledsignz.com](http://www.ledsignz.com)
