

Help Spread the Message and Fund Our Church's Summer Trip to the Homeland!

Dear Church Community,

We're LEDSIGNZ, creators of the innovative Street Talker™ - a patented, portable, trailer-mounted LED sign designed for broadcasting messages anywhere, anytime. Perfect for events, promotions, disasters, or daily announcements, it's easy to set up, runs on a car battery or 120V power, and features never-fail technology (Patent #9,812,044).

We need your help to make connections and sell these amazing signs! Priced at \$24,000, the Street Talker™ is ideal for businesses, churches, hotels, DHS, DOT, FEMA and more. For every sale you help us make through your referrals or networks, we'll donate \$4,000 directly to our church fund. These funds will support a special summer trip for our people to visit the homeland - a meaningful journey of connection and heritage.

Join us in this mission! If you know someone who could benefit from a Street Talker™, connect them with us today. to get started and help fund the trip!
